SOUTH AFRICA ROAD MAP
ACTIVITIES/RECOMMENDATIONS (2016 – 2017)

• Standards/regulations under review - will be submitted to Legal Services for final editing and submission for approval not later than March 2017

• QC/QA/compliance monitoring system was reviewed and key principles will be included into the regulations. Busy compiling guideline document outlining the principles and criteris
ACTIVITIES/RECOMMENDATION (2017 – 2018)

• Develop audit tool based on guidelines and the steps for corrective action

• Pursue the inclusion of R.908 (Regulations on HACCP) for millers and link with the fortification requirements

• Interact with the SA Grain Information Service (SAGIS) and DAFF (Dept. Agriculture) to get all the products listed on the monthly return to be submitted by millers
ACTIVITIES/RECOMMENDATION (2017 – 2018)

• Conduct a quick survey by Environmental Health Practitioners (EHPs) to mills (Checklist to be provided). EHP to establish who is not fortifying and then go to SAGIS to see if they are registered with SAGIS

• This will allow further implementation at small-scale millers

• Include ‘macro’ monitoring of fortified foods by SAGIS
